## Welcome Message

Dear Friends & Colleagues,

We would like to invite you to the next edition of our annual event '11 Days of Facial Plastic Surgery', a set of 3 back-to-back courses that will be held from 4<sup>th</sup> to 14<sup>th</sup> November 2018. The second course during this event will be the '4<sup>th</sup> Singapore Facial Rejuvenation Surgery Fresh Frozen Cadaveric Dissection Course'.

The course comprises of one day of lectures and 2 days of dissection on high quality fresh frozen cadaveric specimens to provide extensive hands-on training in a wide range of surgical techniques used to rejuvenate the aging face and enhance facial beauty. Practical tips by our expert faculty will help delegates to enhance their skills in pre-operative assessment, planning, surgical techniques and post-operative care of the aesthetic patients.

The laboratory portion of the course will be limited to **20 Dissectors** to allow for close supervision by our experienced faculty. Participants in the previous courses have greatly appreciated the ample time available for dissection, which allowed them to learn the surgical techniques in-depth and at a relaxed pace. All surgical instruments and implants will be made available to the delegates.

We are fortunate to have internationally renowned Facial Plastic Surgeons Prof Regan Thomas (USA), Prof Andrew Jacono (USA) and Dr Tuan V. Pham (Australia) as Teachers of Honour for the course. Our international faculty includes Dr Alwyn D'Souza (UK), Dr Mehmet Manisali (UK) and Dr Ullas Raghavan (UK). The participants will also benefit from the wealth of experience offered by our outstanding regional and national multidisciplinary faculty belonging to the field of Otolaryngology, Ophthalmology and Maxillofacial Surgery.

Singapore is a vibrant city with many historical and contemporary architectural landmarks. Singapore is a popular tourist destination that offers richness and variety of experiences that will help you to have a memorable stay in this garden city. Travel to Singapore is easy as it is well connected to major airports in the world.

We look forward to seeing you at '11 Days of Facial Plastic Surgery 2018'.

Course Chairman

Dr Sandeep Uppal PhD, FRCS (ORL-HNS)

Adj. Asst. Prof in Otolaryngology,  
National University of Singapore

Senior Consultant Otolaryngologist  
Trained in Facial Plastic Surgery,  
Khoo Teck Puat Hospital
