Welcome Message

Dear Friends & Colleagues,

We would like to invite you to the Wooden Anniversary of '11 Days of Facial Plastic Surgery', a series of 3 courses to be held from 4th to 14th November 2018. The third course during this event will be the '5th Singapore Facial Fracture and Soft Tissue Reconstruction Fresh Frozen Cadaveric Dissection Course'.

The course consists of one full day of didactic lectures covering the commonly encountered problems during facial reconstruction. A distinctive feature of the course is that it offers **three full days of surgical dissection** on high quality fresh frozen cadavers. The participants will be imparted comprehensive practical training in management of all aspects of facial fractures (using AOCMF principles) and soft tissue defects. The surgical laboratory portion of the course will be limited to **20 Dissectors** to allow for close and personal interaction between faculty and participants. Participants in the previous courses have greatly valued the generous amount of time available for dissection during the course. State of the art surgical instruments and implants will be made available to the delegates courtesy of our sponsors.

We are fortunate to have internationally renowned Facial Plastic Surgeons Prof Regan Thomas (USA), Prof Fazil Apayadin (Turkey), Dr Alwyn D'Souza (UK) and Dr Mehmet Manisali (UK) as Teachers of Honour for the course. The participants will also benefit from the wealth of experience offered by our outstanding regional and national multidisciplinary faculty belonging to the field of Otolaryngology, Ophthalmology and Maxillofacial Surgery.

Singapore is a vibrant city and a popular tourist destination. It offers a variety of experiences that will make your visit to our lion city memorable. Travel to Singapore is easy as it is well connected to major airports in the world.

We look forward to seeing you at '11 Days of Facial Plastic Surgery 2018'.

Course Chairman
Dr Sandeep Uppal PhD, FRCS (ORL-HNS)
Adj. Asst. Prof in Otolaryngology,
National University of Singapore
Senior Consultant Otolaryngologist
Trained in Facial Plastic Surgery,
Khoo Teck Puat Hospital

Programme at a Glance

Day 1 Lectures

- » Assessment and Initial Management of Patients with Facial Injury
- » Craniofacial Anatomy and Biomechanics
- » Principles of Osteosynthesis and Choice of Plates and Screws
- » Management of Dentoalveolar Injuries and Occlusion
- » Frontal Sinus Fractures
- » Naso-Orbito-Ethmoidal Fracture Management
- » Management of Zygomatico-Maxillary Complex Fractures
- » Management of Orbital Wall Fractures
- » Management of Le Fort Fractures
- » Management of Condylar and Subcondylar Fractures
- » Management of Mandible Angle and Body Fractures
- » Management of Symphysis and Parasymphysis Fractures
- » Sequencing of Panfacial Fractures
- » Subunit Approach to Facial Reconstruction
- » Management of Eye Lid Lacerations and Canalicular Injuries
- » Local Flaps in Facial Reconstruction
- » Principles of Facial Scar Revision
- » Nasal Reconstruction
- » Lip and Perioral Reconstruction
- » Ear Reconstruction
- » Scalp Reconstruction
- » Reconstruction of Eyelid Defects

Day 2, 3 & 4 Fresh Frozen Cadaveric Dissection

- » Z-plasty, M-plasty and Geometric Broken Line Closure for Scar Revision
- » Helix and Ear Lobe Reconstruction
- » Eyelid Reconstruction
- » Abbe Estlander Flap
- » Karapandzic Flap
- » Nasal Defect Repair: Bilobed Flap
- » Alar Defect Repair: Subcutaneous Pedicle Interpolated Cheek Flap and Conchal Cartilage Graft
- » Paramedian Forehead Flap
- » Coronal Approach to Zygomatic Arch and Frontal Sinus Fractures
- » Preauricular, Retromandibular and Transcervical Approaches to the Mandible
- » Transoral Approaches to the Midface and Mandible
- » Maxillo-Mandibular Fixation
- » Introduction to DePuy Synthes Matrix Sets
- » Creating a Le Fort 1 Fracture and Repairing It
- » Creating and Repairing Tripod and Orbital Floor Fractures
- » Creating a Parasympyseal Fracture and Repairing It
- » Creating a Mandible Angle Fracture and Repairing It
- » Creating a Subcondylar Fracture and Repairing It
- » Creating a Frontal Sinus and NOE Fracture and Repairing It

Program is subject to change without prior notice.
